Improvements

We are pleased to report that the 900 Building roof has been replaced and includes a 40-year GAF System Plus Limited Warranty.

The Association also replaced the leaning railroad tie wall behind the mailboxes, improving both the appearance and safety of the area.

Tree work has been completed throughout the community, including the removal of dead and dying trees. Trees were also trimmed away from buildings to help maintain proper clearance and protect the Association's property.

Annual Election Meeting

Please plan to join us for the Annual Election Meeting on November 19th, at 6:00 pm in the Clubhouse. In addition to the election of Board members, the President and Treasurer will present the 2026 year-end financial information and the proposed 2027 budget.

Recycling

Please break down your boxes when putting them out on recycling day.

Thank you!

Thank you to all of our homeowners for taking pride in your homes and helping keep Bethel Grant a beautiful place to live!
